Subject: Budget Justification

- 1. PURPOSE** The purpose of this Office Work Instruction (OWI) is to define the process for justifying the Office of Space Science (OSS) budget.

2. SCOPE AND APPLICABILITY

- 2.1 The three major phases to the budget process are: (a) formulation (also known as development); (b) justification (also known as advocacy); and (c) execution (also known as implementation). One of the most important characteristics of the budget process is that at any given time, some aspect of all three phases of the budget process is occurring. In a given year, OSS formulates the budget for the fiscal year that is two years away, justifies the budget for the upcoming year, and executes the budget for the current year.
- 2.2 The budget-justification process is viewed as having two major elements: (a) internal advocacy; and (b) external advocacy. Internal advocacy encompasses those activities that occur between the OSS submittal to the NASA Headquarters Office of the Chief Financial Officer (Code B) and NASA's submittal to the Office of Management and Budget (OMB). External advocacy encompasses a broad range of activities that are completed when the Congress authorizes a budget.
- 2.3 The scope of this OWI is confined to the description of the OSS budget-justification activities.

3. DEFINITIONS

- 3.1 AA. Associate Administrator for Space Science.
- 3.2 A&RM. Administration and Resources Management Division of the Office of Space Science.
- 3.3 CIC. Capital Investment Council that is a review panel consisting of the Associate Administrator for Space Science and other NASA Headquarters senior managers.
- 3.4 Code B. NASA Headquarters Office of the Chief Financial Officer (CFO).

6. PROCEDURE

<u>STEP #</u>	<u>ACTION OFFICERS</u>	<u>DESCRIPTION</u>
6.1	AA, A&RM	Present the budget to the CIC and the SMC. Prepare a series of presentations that includes: (a) a summary of program accomplishments and status; (b) changes to the previous budget baseline, program and project schedules, and content; and (c) major issues. The Associate Administrator for Space Science gives the presentations to the CIC and the SMC. The A&RM Division prepares the presentations, with support from the OSS technical divisions.
6.2	AA, A&RM	Update the budget recommendation. This is an iterative process involving meetings with the NASA Administrator, the NASA Comptroller (in Code B), and the Associate Administrator for Space Science. These final budget decisions form the basis for NASA's budget submittal.
6.3	AA, A&RM	Present the budget briefing to the OMB. The Associate Administrator for Space Science provides OMB presentations in the form of budget narratives, briefings, and follow-up responses. These presentations focus on the past year's accomplishments, current status, performance measures, and future plans. They are prepared by the A&RM Division, with support from the OSS technical divisions. Provide additional narrative and formats to Code B for subsequent interactions with OMB.
6.4	AA, A&RM	Update the budget request in an iterative manner in response to budget marks provided by the OMB. This forms the basis of the Presidential budget request to Congress.
6.5	A&RM	Prepare the Presidential budget request. A&RM coordinates preparation of the draft narrative for the OSS section of NASA's budget. Prepare a comprehensive back-up book to provide supporting information on budget changes, program and project schedules, staffing, etc.

6.6 A&RM

Provide (in coordination with Code L and Code B) the following types of budget advocacy to the Congress: (a) white papers; (b) briefings; (c) testimony; and (d) responses to Congressional questions. All of these activities provide the Congress with a more extended discussion of program accomplishments, status, and future planned activities. The requirements for these products may vary from year to year, depending upon the specifics of the Congressional review process.

7. QUALITY RECORDS
